GNB HAS THE BEST AND MOST **SERVICE-MINDED** EMPLOYEES:
IT IS THE INDIVIDUAL GNB EMPLOYEES
WHO MAKE THE DIFFERENCE

SERVICE AND ADVICE

Skills and commitment: At the end of the day, our success depends on the skills and commitment of the individual GNB employees. When asked, our customers often mention and praise GNB's employees.

The personal advice, the extensive knowledge and the will to go the extra mile are factors that are repeatedly mentioned by our customers. Our ambitions are sky-high when it comes to personal advice and the service we provide our customers.

This special GNB spirit is reflected in a constant striving for development and innovation and a clearly defined goal to provide the best advice and support in the industry.

CUSTOMER TESTIMONIAL:

**” THEY GIVE EXCELLENT
ADVICE AND YOU
FEEL THAT THEY WILL
DO THEIR UTMOST

SOLUTIONS**

**GNB'S PRODUCT RANGE IS BROAD AND SOPHISTICATED
WE PAY ATTENTION TO DETAIL AS WELL AS
THE OVERALL SOLUTION**

The details and the overall solution: GNB's product catalogue contains a very large number of quality products.

Our range of batteries includes both standard batteries and maintenance-free types; see our product overview at www.gnb-nordic.com.

However, our skills are not limited to the products. We also give our customers a good overview of the large overall solutions. We are able to do that because we have been engaged in a close dialogue with some of the world's largest and most demanding customers for many years.

GNB'S CUSTOMERS ARE USED TO GETTING EXCELLENT ADVICE:
GNB'S CUSTOMERS HAVE VERY STRICT REQUIREMENTS, WHICH IS WHY WE ARE DOING SO WELL

MAKE DEMANDS ON US

NETWORK SOLUTIONS

Expectations and requirements: Our customers have extremely strict requirements to the quality of the solutions in which they invest, and that is exactly why we are doing so well. We are not afraid of challenges because we experience that a close dialogue and the customer's strict requirements to quality strengthen the dynamics at GNB. At GNB, we are not just concerned about the individual order – we want to establish long-term partnership agreements that can remain in place for many years. We can only do that if we live up to both the customers' requirements and our own expectations.

HISTORY

More than 120 years of battery experience: GNB Industrial Power is a vital part of the Exide Technologies Group, one of the world's largest battery manufacturers, and we have more than 120 years' experience with battery development. The company was founded in 1888 under the name Electric Storage Battery Company, and since then we have expanded and changed name several times. In 1994 all departments were combined under the Exide name. In 2010 the Industrial Division (Motive and Network) changed name to GNB Industrial Power – A Division of Exide Technologies. GNB is an abbreviation of the name Gould National Batteries – a recognised company name under which Exide has sold batteries for many years in the USA and Asia.
