New AGM Marathon M12V100FT

GNB[®] Industrial Power is pleased to announce the addition of a new model to the Marathon M-FT range: M12V100FT. This product is considered standard for 19" Telecom cabinets.

Designed for durability in telecommunications and electric utility applications, the Marathon M12V100FT provides high performance, very long life and excellent reliability in medium and long duration discharge applications.

The location of the terminals on the front (vs. the top) of the battery greatly facilitates the installation and maintenance of the product when placed in a cabinet enclosure or on a standard relay rack tray.
