

## Customer Product Information

### NEW Powerfit S312/18F5 with Female Terminal

The Powerfit S312/18 model will be available with **female** threaded terminal F-M5, from the end of June 2014. Thanks to this new design, the height of the terminal is reduced and the assembly is facilitated. The performance and general features remain the same as S312/18G5; only the terminal is changed. Please see attached updated brochure.

Powerfit S300 batteries offer a compact energy source particularly suitable for emergency lighting and security systems, with a wide range of models from 1.2 Ah to 38 Ah capacity.
