

Sonnenschein RAIL Blocks

New Type Designation from October 2014

In our aim to continuously improve our products we have decided to unitize the type designations for our Sonnenschein RAIL Block batteries at the beginning from three to two digits.

This means that from SRC, SRP and SRL we will go for **SR** (**S**onnenschein **R**AIL) only.

The part numbers will remain unchanged.

All other features such as performance, dimensions and weight will not change.
